

CONTASTE

THE SOUL OF TOUCH

CONTASTE

THE SOUL OF TOUCH

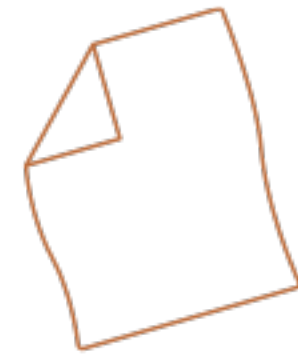

Contaste is a project born from an idea by Giampiero Panepinto, an architect from Milan who works in hospitality design.

The starting point of this brand are the details, which complete a project from all points of view, fulfilling needs that are often overlooked and not considered.

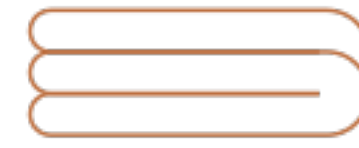

Interpreting an environment to make it an unforgettable experience, a unique and singular identity is one of our objectives.

Contaste connects a new lifestyle to needs, enhances the culture of the project while maintaining its authenticity, creates a unique experience and unforgettable.
